Hear From Epiphany APPs

Claire Mann, AGNP

"After practicing as an RN for several years, my mentor - Epiphany physician Dr. Karen Nern - encouraged and guided me through my pursuit of becoming a Nurse Practitioner. Fast forward five years and I'm seeing up to 40 patients per day across four of our Colorado locations and I couldn't be happier. I can't imagine a more supportive and forward-thinking employer than Epiphany Dermatology."

Kerbi Elsenbroek, PA-C

"Working as a PA at Epiphany means having a team that backs you and offers resources to help you succeed. The experience I've gained learning from Dr. Plott, and several other Epiphany providers over the last seven years, is unparalleled in this industry. Here, I'm able to delve deeply into the areas of dermatology I'm passionate about, get the support I need, and maintain a work-life balance."
